

30 Watt AC/DC Chassis Module: Single, Dual and Triple Output Series

- Efficiency up to 80%
- Universal Input Range 85-265 VAC
- Single, Dual and Triple Output Modules
- 3000VAC Isolation
- Short Circuit Protection
- Over Voltage Protection
- MTBF > 250,000 Hours
- UL60950 Approved
- RoHS Compliant

Notes:

- Specifications typical at Ta=+25°C, 115VAC, 60Hz input voltage, rated output current unless otherwise noted.
- ConTech power converters require a minimum output loading to maintain specified regulation. Operation under no-load conditions will not damage these modules; however, they may not meet all specifications listed.
- The series has a limitation of a maximum connected capacitance at the output. The power module may be operated in current limiting mode during start-up, affecting the ramp-up and the startup time.
- Ripple & Noise measurement bandwidth is 0-20MHz.
- Cross Regulation - Measured output I_o = 20% to 100% of rated load. Other outputs are set at 50% of rated load.
- Peak current can not be drawn from all outputs at the same time.
- Floating (or isolated) output of a power supply that is not connected to any other output.
- Long term short circuit operation may cause damage to the unit.
- Water washability - ConTech AC/DC converters are designed to withstand most solder/wash processes. Careful attention should be used when assessing the applicability in your specific manufacturing process. Converters are not hermetically sealed.
- See ConTech website for Definition of Terms, Application Notes, and Test Setups and Parameters. www.ConTech-us.com/appnotes.html
- Specifications subject to change without notice.
- See ConTech website www.ConTech-us.com/pdf/rohs.pdf for RoHS Statement.

Derating Curve

To avoid exceeding the maximum temperature rating of the components inside the power module, the case temperature must be kept below 90°C.

Input Fuse Selection Table	
Built In Fuse	6A - 250VAC
External Fuse (Recommended)	1.5A Slow-Blow Type

External fusing should be used for system protection due to a catastrophic failure. See ConTech website for Fusing Application Notes to determine the correct fuse.
